DESCRIPTION

The PI-2WCR2 self-amplified ceiling speaker contains high efficiency circuitry with adjustable output level. Designed to be used with telephone systems or paging devices with a 600 ohm audio output

APPLICATIONS

The PI-2WCR2 self amplified ceiling speaker recommends itself for indoor applications. The intelligibility of this ceiling speaker makes it ideally suited for office environments, department stores, or any location in need of a discreet means of paging. The volume control is recessed, ensuring the added security that only authorized persons can have access to adjusting audio output. The aesthetic finish of the PI-2WCR2 ceiling speaker makes it suitable for use in places warranting a professional appearance. The intelligibility is exceptional whether for background music or paging.
